

Our Mission:
Support supervisors and managers in a welcome and safe environment to promote leadership and effective personnel management.

Why should you consider CSN networking events?

1. Studies show that group discussions are **more effective ways to retain information** than just reading or listening to a lecture. (See “*The Learning Pyramid*” at right.)
2. Networking with other managers on campus gives you **more perspectives** to consider. Seeing what others are doing to solve similar problems and challenges can be very helpful.
3. Campus Supervisors Network members continuously look for **information and programs pertinent to your success** in leading others at the UW – we literally have your back!
4. Along with our programs we facilitate, we have a **truckload of resources** for you to access and reference on our **robust CSN website** at campussupervisorsnetwork.wisc.edu
5. You can contact us directly to help you find a resource or person at the UW when you have a management need. **We have connections to OHR, Employee Assistance, and more** and can steer you in the right direction.
6. Continue the conversation on LinkedIn! If you are a LinkedIn member, you can connect to our members through this tool to network virtually. We share valuable TED talks and more through this medium.
